DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being vague and indefinite. Claim 18, as filed, is dependent upon itself. Claims 19-22 are vague and indefinite because of their dependency on vague and indefinite claim 18. Accordingly, claims 18-22 have not been further treated on the merits.

Allowable Subject Matter

Claims 2-17 and 23 are allowed.

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented. Although the prior art teaches an optical scanning device having a non-periodic phase structure arranged to compensate for comatic aberrations, the prior art fails to teach the specific correction with respect to the comatic wavefront error for a given field angle with respect to the axial direction as claimed in amended independent claim 2, the numerical limitation imposed by amended independent claim 4 as applied to the root mean square wavefront error and the zone step being of

constant height with respect to the surface shape of the optical element as claimed in amended independent claims 6 and 17.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
